GAMES and Economic Behavior

EDITOR: **Ehud Kalai**

*Northwestern University,
Evanston, Illinois*

***Game-Theoretic
Modeling in the
Social, Biological,
and Mathematical
Sciences***

Papers published are mathematically rigorous as well as accessible to readers in related fields. The purpose of **Games and Economic Behavior** is to facilitate cross-fertilization between the theory and application of game-theoretic reasoning.

Research Areas Include

- Game theory • Economics • Political science • Biology
- Computer science • Mathematics • Psychology

Volume 1 (1989), 4 Issues
ISSN 0899-8256

In the U.S.A. and Canada: \$100.00
All other countries: \$122.00

Manuscripts may be submitted to:

Games and Economic Behavior
J. L. Kellogg School of Management
MEDS Department
Northwestern University

Economics

New Volumes in the **ECONOMIC THEORY, ECONOMETRICS,
AND MATHEMATICAL ECONOMICS** Series

Finance Constraints and the Theory of Money

Selected Papers

S.C. Tsiang, David Laidler,
Alan C. Stockman, and Sir John Hicks

edited by

Meir Kohn

This volume is a collection of S.C. Tsiang's principal published work in this area, and includes an extensive new introduction in which Tsiang explains the development of his ideas. Interpretive essays by Sir John Hicks, David Laidler, and Alan Stockman assess the significance of Tsiang's work and its relevance to current concerns.

In Paperback: \$34.50 (tentative)

ISBN: 0-12-701721-6

Casebound: \$59.95 (tentative)

ISBN: 0-12-701720-8

September 1989, c. 368 pages

General Equilibrium Models of Monetary Economies

Studies in the Static Foundation of
Monetary Theory

edited by

Ross M. Starr

This collection of articles provides a very well-organized survey of fundamental research on the financial structure of formal models of market economics—a topic of considerable current interest.

February 1989, 368 pages, \$49.50

ISBN: 0-12-663970-1

Uncertainty in Economics

Readings and Exercises

Revised Edition

edited by

Peter Diamond and Michael Rothschild

This revised edition of the successful text includes three new articles, added material on search theory, an additional preface, and updated references. Articles are divided into three broad sections: theory of choice under uncertainty, general equilibrium models of financial institutions, and models of the effects of uncertainty on market institutions.

August 1989, c. 587 pages, \$39.95

ISBN: 0-12-214851-7

Optimization of Stochastic Systems

Topics in Discrete-Time Dynamics

Second Edition

Masanao Aoki

CONTENTS: Deterministic Models and Their Control Problems. Stochastic Models. Stochastic Control Problems. Time Series and Econometric Models: Example. Estimation. Convergence Questions. Adaptive Systems and Bayesian Control Problems. Linear Rational Expectations Models. Approximations. References. Appendix: Markov Processes.

August 1989, c. 456 pages, \$49.95 (tentative)

ISBN: 0-12-058851-X

Historia Mathematica

Editor

Eberhard Knobloch

Technische Universität Berlin, West Germany

Managing Editor

Helena Pycior

University of Wisconsin, Milwaukee

Historia Mathematica is concerned with the history of all aspects of the mathematical sciences in all parts of the world and from all historical periods.

The journal includes occasional biographies of mathematicians and historians, articles on organizations and institutions, essays on historiography, and the interactions among all facets of mathematical activity and other aspects of culture and society.

In addition to original research, **Historia Mathematica** includes the following departments: Notes, Sources, Meetings, Projects, Reviews, Abstracts, and Letters to the Editor.

Published under the Auspices of the Commission on the History of Mathematics of the Division of the History of Science of the International Union of the History and Philosophy of Science

Outstanding Sources for Sociologists

THE MODERN WORLD-SYSTEM III

The Second Era of Great Expansion of the Capitalist World-Economy, 1730-1840s

Immanuel Wallerstein

A Volume in the *STUDIES IN SOCIAL DISCONTINUITY* Series

From the Reviews of Volumes I and II:

"...one of the few significant historical analyses... Wallerstein's book aims to achieve nothing less than a coherent understanding of the making of the modern world and the unique development within it of modern capitalism...all are sure to agree that Wallerstein has written a most impressive book."

—THE NEW YORK TIMES BOOK REVIEW

CONTENTS: Industry and Bourgeoisie. Struggle in the Core—Phase III: 1763-1815. The Incorporation of

Vast New Zones into the World-Economy: 1750-1850. The Settler Decolonization of the Americas: 1763-1833. Bibliography. Index.
